Lab Activity #04 - Cognitive Agents and MAS for Pervasive Systems - Follow-up

Discussion

- About the application and integration of agent-based technologies with WoT/IoT systems and pervasive systems in general

  - recalling key points about the "Hypermedia MAS" perspective in prof. Ciortea's seminar

- Contribution/demo by PhD Samuele Burattini
  - Context:
    - IntelIIoT EU project
    - JaCaMo MAS used to control WoT environments
  - Visual programming environment for domain experts
